

# Welch Allyn Propaq® CS and Propaq® LT Vital Signs Monitors

Cost-effective monitoring solutions for outpatient surgery and procedures.

# Easy-to-use. Reliable. Cost-effective.

## And versatile enough to be used anywhere.

Welch Allyn Propaq CS and Propaq LT Patient Monitors

### Easy-to-use

Designed with the busy user in mind, the Propaq CS features a bright, full-color touchscreen display and easy-to-use menu functions, making it an ideal monitor during procedures requiring conscious sedation and continuous patient monitoring.

Ideal for continuous monitoring and spot-check during simple procedures, the Propaq LT features an intuitive, navigational keypad with the option to connect to a large color display for across-the-room viewing of patient data. Plus, the Propaq LT weighs in at just about two pounds, making it easy to move throughout your facility.

### Reliable enough for any situation

The Propaq product line was designed for rugged military use and can stand up to your toughest days. The Propaq LT has shock resistance that can withstand a six-foot drop, so you can be confident that it is durable enough to use during simple procedures or monitoring vitals in pre-op and recovery. And with legendary Propaq quality, you can rely on your Propaq LT and Propaq CS monitors for many years to come.

### Cost-effective solutions

When you purchase a Welch Allyn Propaq monitor, you're investing in a quality brand that has stood the test of time. For decades, both hospital and military personnel have counted on Propaq monitors for their proven reliability and durability, so you can be confident in your investment. And to further protect your investment, the Welch Allyn Partners in Care Services<sup>SM</sup> program will help ensure that your monitors are up and running whenever you need them.
